7:00	Buffet opens; alumni begin circulating among the tables to meet students and engage in conversation over dinner
7:50	Door prize drawings, sign-ups for Revs Stadium tour
8:00	Conclusion

Question Prompts for Conversations with Alumni

When a Spartan graduate visits your table, ask them any of the questions below, or make up your own! The alumni are eager to meet you and help you plan your own path to success.

- What did you do right in your first college year that helped you be successful?
- What would you do differently if you could do your first college year over again?
- If you were to give a first-year college student one piece of advice, what would it be?
- If you were hiring a recent college graduate today, what would you want to see in an ideal applicant, besides their degree?
- How can first-year students begin now to acquire the skills, habits, and traits that employers will be looking for when they graduate?
- How important is it for college students to have internships or volunteer experience in a field related to their major before they graduate?
- What did you learn in college that still serves you well as a professional?
- How highly respected is a York College degree for people working in your field?
- When I am a young alumnus, what opportunities will I have to stay connected to YCP?
- Can we contact you after tonight to ask more questions and stay in touch?
- Write your own question: _____

FROM DAY ONE.

Notes:
